

**SENSITIVE  
AND EMOTIONAL  
MANUFACTURES**

Since 1997, the designers Hind Rabii and Michel Orban both industrial engineers have a common passion and love for creation, design and innovation. Because here is the poetic message of filters, colours, blended reflections, transparency that appears to make every HIND RABII model appeal to the desire of love and of light.

This language which skillfully builds itself in front of the manufactures that are glass blowing, confection of lampshades, wood, aluminum and steel work. All these trades that HIND RABII manages to show only the essentials.

## THE POETRY OF MATERIALS

We expect lights to shed light, to shine, to create shadows and to positively alter the realities for playing the emotions card without indifference.

Using the most sophisticated technologies in terms of energy and their usage is an economic and social priority. All the choices made by HIND RABII have this in mind, and often give rise to amazement and surprise.

The main of HIND RABII characteristic is the variety of the materials and the elegance of the details. Worked using manual tools, the metal parts have a perfect finish, ceramic is sourced from the Venice region, glass, which is a very important material in the collection, comes from Murano, where glass has been blown for generations.

Using a strategy of managed distribution and sales, the company has been able to make a name for itself, and its collections are displayed in the best lighting and interior design showrooms in the world.

More than a simple light, our lights are made in Belgium or in Italy. We are so proud of our process, our materials used during manufacturing such as, ecologic wax, European wood and so on are strictly selected to respect our Philosophy.

Our search and development steps are sometimes long and difficult but we expect always a final result that make our products recognizable between a lot.

Kahlil Gibran

We are so proud to be winner of the German Design AWARD 2019, for 2 collections: **T-COTTA & Meridiana** Design Chiamonte Marin Studio, for the design, construction, innovative materials and big technical mastery.

« I THINK THAT THE QUALITY OF A PRODUCT CAN BE SUMMED UP IN 3 POINTS: THE CHOICE OF THE MATERIAL, I ALWAYS WORKED THE NOBLE MATERIALS, THE DEXTERITY OF THE HAND WHICH TRANSFORMS IT AND THE EYE OF THE CRAFTSMAN. THE CRAFTSMAN WILL ENSURE THAT THE MATERIAL IS FINISHED IN THE MOST BEAUTIFUL WAY. »
